Camp Philosophy

As a growing basketball player, creating successful habits is critical to reaching and maintaining success.

Campers who graduate from the La Salle Basketball camp will walk away from their camp experience equipped with the basketball habits which are needed to be successful. All campers will be introduced to concepts, ideas and drills which can be used throughout their basketball journey and applied to their respective games for overall improvement. Personal individualized attention will be given to each camper so that at the conclusion of the camp, all participants will know what is needed for improvement and perhaps more importantly, how to obtain and reach that improvement.

Additionally as important as improving overall skills is having the understanding of how to play the game the correct way and understanding strategies, concepts and game situations. The La Salle Basketball camp will also introduce film breakdown sessions and offensive, defensive and special situation questions and answer sessions to further enhance the camp experience.

Campers will have the opportunity to improve their game both from an individual and team standpoint. As an added bonus, campers will also increase their overall basketball understanding.
